GO GREEN – GOOD FOR BUSINESS

Regulatory Requirements | The City of Marina municipal code requires all commercial businesses to subscribe to weekly garbage collection services. The State of California has also passed legislation requiring businesses subscribe to recycling and organics collection services.

Mandatory Commercial Recycling | California Assembly Bill 341 (AB341) became effective July 1, 2012. AB341 mandates recycling for all businesses in California producing 4 cubic yards or more of garbage per week. Subscribing to recyclable materials collection services through GreenWaste will help ensure compliance with AB341 and can even help reduce collection costs. For more information on enhanced recycling services through GreenWaste or to start or expand an existing recycling program, please contact Customer Service.

Mandatory Organics Recycling | California Assembly Bill 1826 (AB1826) was signed into law in 2014, mandating organics recycling for businesses in California. By 2020, all businesses in California producing 2 cubic yards or more of garbage per week are required to subscribe to organic material collection services. Subscribing to food waste collection services through GreenWaste will help ensure compliance with AB1826 and can even help reduce collection costs. For more information on food waste collection services through GreenWaste or to start or expand a food waste recycling program, please contact Customer Service.

Monterey Bay Area Green Business Program | Put your waste reduction efforts to good use with the Monterey Bay Area Green Business Program; an opportunity to implement green practices, receive onsite technical assistance, join the green business community and receive recognition from your local municipality. By creating an advanced waste reduction and recycling program you are on your way to being certified “green”. Businesses must be in compliance with all regulations and meet program standards for conserving resources, preventing pollution, and minimizing waste.

DONATION & REUSE Please consider donating items that are in good condition to a local thrift store or other nonprofit organization. Many of these organizations have convenient drop-off locations and/or pick-up options and your donation may be tax deductible.

Last Chance Mercantile

14201 Del Monte Blvd.
Marina, CA 93933
Tel: 831.384.5313

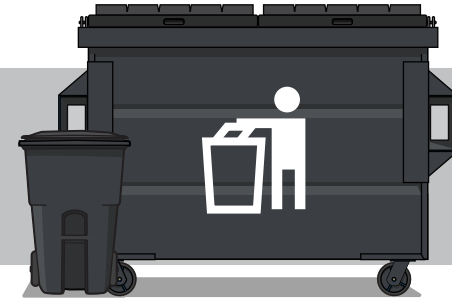

GreenWaste is a proud supporter of the Last Chance Mercantile in Marina. Most reusable items collected under GreenWaste's Bulky Item Program will be delivered to the Last Chance Mercantile.

SERVICES AVAILABLE

Material Types | Commercial businesses are offered weekly collection services for garbage, recyclable materials and food waste. Collection services are also available for mixed construction waste and demolition debris (C&D). Additional information on C&D collection can be found on page 7 of this guide.

Collection Frequency | All subscription-based services are available up to six (6) times per week and not less than once per week, on a Monday - Friday regular schedule, with Saturday service available as the 6th collection day.

Special Pick-ups | Collection services are also available on days other than regularly scheduled collection day(s) for an additional charge. Special pick-ups are scheduled at the customer's request, up to six (6) days per week total service. To schedule a special pick-up, please contact Customer Service.

COLLECTION INFORMATION

Service Locations | GreenWaste can accommodate different collection locations for businesses based on customer preference, accessibility and space constraints. If the service location is not immediately accessible or if unique conditions or special requests are made, additional charges apply. To determine whether your collection location or needs may incur additional charges, please contact Customer Service.

Collection and Set-out Times | All containers must be placed in the designated collection location or made accessible for collection no later than 4:00AM on your regular collection day. Containers placed out for collection curbside should be returned to the appropriate enclosure promptly following collection service.

Extra Materials | Materials that are placed out for collection beyond the capacity of the container and overfilled containers will be collected and additional charges will be assessed based on material type and volume of material collected. GreenWaste encourages customers to contact Customer Service in advance.

Bulky-item Collection | Bulky-item collection is available for an additional charge. Items are considered bulky if they won't fit inside the container or if they contain lead or mercury (e.g. computers, monitors and televisions). To schedule a bulky-item collection, please contact Customer Service.

Holiday Observance | Collection will not occur on New Year's Day (January 1st), Thanksgiving Day (4th Thursday in November) or Christmas Day (December 25th). If an observed holiday falls on a regular collection day, collection for the remainder of the week will be delayed by one day. Regular collection will resume the following week.

COLLECTION RATES

Collection Costs | Costs for collection of garbage, recyclable materials and food waste vary depending on services requested. Additional services are available for an additional charge and may include special pick-up fees and per-pull fees as described below.

Monthly Rates | Weekly subscription-based collection services are based on the material type, container size and frequency of collection. Services are provided weekly and customers are billed monthly in advance.

Per-Pull Fees | All collection services in roll-off boxes and compactors are charged on a per-pull basis. Charges include per-pull fees, plus material processing and/or disposal fees or credits based on the weight of the material collected and contamination charges, when applicable.

Additional Services | GreenWaste offers extra services to facilitate collection for an additional charge. Services may include, but are not limited to: opening and closing gates, pushing and/or pulling containers, locking and/or unlocking containers/enclosures, or performing other services as reasonably necessary to access and empty containers.

Service Requests | Subscription changes, collection of additional materials and/or special items or collection of materials on a day other than the regularly scheduled collection day can only be requested by persons authorized on the account.

COLLECTION CONTAINERS

Carts and Bins | GreenWaste provides containers for weekly subscription-based services in 32-, 65- and 95-gallon carts and/or 1-, 2-, 3-, 4-, 6-, and 8- cubic yard bins*.

**3-, 4-, 6-, or 8- cubic yard bins are not available for food waste collection.*

Roll-off Boxes and Compactors | GreenWaste offers recurring and/or on-call collection services in 10-, 20-, 30-, and 40- cubic yard roll-off boxes provided by GreenWaste and customer-provided stationary compactors ranging in size from 10- to 40-cubic yards.

GreenWaste does not provide compactors to customers, however, maintenance services for compactors are available for an additional fee. GreenWaste can also provide a list of known vendors and specifications to customers interested in purchasing compactors, to ensure compatibility with collection vehicles.

Place recyclable materials loose inside your recyclable materials container. All items must fit completely inside the container with the lid closed.

METAL

STOP!

GARBAGE GOES DIRECTLY TO LANDFILL!

Please double-check items against the list of acceptable recyclable materials and food waste before placing them into your garbage container.

This is a subscription-based service. If your business does not have a food waste collection program, these items belong in your grey garbage container.

Pre- and Post-Consumer Food Scraps

- Bones and shells
- Coffee grounds and filters
- Dairy (cheese)
- Grains (bread, rice, pasta, beans)
- Fruits and vegetables
- Meat and poultry
- Fish and seafood
- Table flowers

Compostable Food Wares must be certified "Compostable" by ASTM and/or BPI*.

- Compostable bowl
- Compostable cups
- Compostable cutlery
- Compostable packaging
- Compostable plastic bags
- Compostable plates

**Items that do not carry the ASTM/BPI certification should be placed in the grey garbage container.*

All materials must fit completely inside the container with the lid closed. Customers will be charged for containers that are overfilled.

If your business generates food waste and you are interested in learning more about GreenWaste's clean food waste collection program or would like to start or expand an existing program, please contact GreenWaste.

GreenWaste offers roll-off box services for large quantities of mixed and source-separated materials. Materials accepted include, but are not limited to:

RECYCLABLE MATERIALS

- Glass
